Highly motivated and passionate about computer science, I am looking for a 4-month internship (May - August).

Education

2018 – now **Fourth year in a five-year engineering degree course**, ISEN YNCREA OUEST, Brest.
2018 **Scientific secondary school diploma with distinction**, Lycée Levassasseur, Saint Denis.

Work Experience

March – **Wordpress website for a local brewer**, Storlok, Brest.
May 2021 *Product showcase website*

January – **Tutoring for Simplon created by Microsoft**, ISEN, Brest.
May 2021 *60 hours of tutoring for 4 adults in retraining*

November 2020 **First participation in ActInSpace**, ActInSpace, Brest.
During a week-end, I worked on the RoverMoon Project in collaboration with 3 friends. The project aimed to program and build a rover able to find water on the moon with certain imposed specifications.

October 2020 **Created a website with Symfony**, LearnStation, Brest.
I spent more 200 hours on the project

April 2019 **Arduino course for high school students**, Lycée Levassasseur, Saint Denis.
Practical work carried out with about twenty students

Languages

French Native language
English B2
Spanish B1

Computer Skills

Front-end	HTML/CSS/JS, React	Servers	Apache
Back-end	PHP, Symphony	Database	MySQL MongoDB
Languages	C/C++, Python	CMS	Wordpress, Wix
OS	Ubuntu, Windows	Network	Cisco course
MCU	Arduino, Raspberry Pi	Web	REST, WebSockets, OAuth2

Interests

Programming Problem solving (Project Euler, Hackerrank), AI (connect 4, tic-tac-toe), Sudoku solver, Discord bot
Electronics Projects with Arduino and Raspberry Pi
Culture Tourism, reading, hiking, gaming
